

Curated by Professor Nicole Jean Hill, selections from the photography archive of Wyoming homesteader and photographer Lora Webb Nichols (1883-1962). Nichols created and collected approximately 24,000 negatives over the course of her lifetime in the mining town of Encampment. The images chronicle the domestic, social, and economic aspects of the sparsely populated frontier of south-central Wyoming.

Lora Webb Nichols, Charles, Mary Jane and Patricia McDonald, 1930
